What's New?

2019 is off to a great start here at Chariots...

Our Classics department have now moved out of the main building and are now situated in a separate building due to our business continuously expanding. The Classics building is also located on Venture park.

This new space will be making room for a new hand over bay and a dedicated Parts department for our Workshop.

However we are still operating as a Classic Cars sales Center in the main building, and business is operating as normal.

Our MOT center has now been open for nearly a year now, and we have carried out over 1000 MOTs so far! We are excited to see how much we can get in another years time.

Also for this year, we have secured a new finance provider for the 2019 Financial year, meaning we now have access to even better rates and fantastic PCP deals to make your new vehicle purchase even easier. A zero deposit is available across our entire stock portfolio.
